What's in a Name?

Can't decide between John or Robert? Is little Dakota more likely to be successful in sports or the arts? A name book like no other, *The Secret Universe of Names: The Dynamic Interplay of Names and Destiny* (Overlook Press, \$52.50), explores the world of names through analysis and

insight by author Roy Feinson. A great resource for researching the perfect baby name; you won't want to stop there. Feinson, a member of the American Name Society, deconstructs the science of names and how they affect our daily lives, personalities, and how others react to us. He even gives

names ratings based on such things as charisma, career success, love and friendship and power. You'll find yourself quickly absorbed and looking up the names of family, friends and co-workers. Naming the baby is only the beginning... [due out November 30th].

Hands Up

Based on American Sign Language, this new DVD will have you effectively communicating with your baby. Aimed at babies 10 to 24 months, this DVD teaches elementary sign language to both babies and parents. A combination of live action images and demonstration signs are combined with a pleasant, lively soundtrack – making learning fun. *My Baby Can Talk – First Signs* (DVD, \$19.95). HIGHCHAIRS

Stokke KinderZeet
The KinderZeet is the chair that grows with your baby from 18 months. Made of Norwegian Beech, the chair has a 5 year guarantee.

The ability to move both the seat and the footrest up and down, allows your toddler and child to always have their feet planted on a solid surface when at the table. As the child grows, he/she will be able to climb up into the chair, like a big kid.
